Dear «Dealer_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2019 Keystone Summerland Travel Trailers. As a result, Keystone RV is conducting a safety recall.

Reason for this recall It has been decided that the vehicles in the recall population have a propane bottle bracket with 2 mounting legs that may break at the mounting point. Under certain conditions during travel, the bracket can break at the mounting point allowing the propane bottle to become detached from the frame of the unit leading to an increased risk of property damage and/or personal injury. The vehicles included in the recall are:

2019 Summerland Travel Trailers, Models 1800BH, 1760BH, 1750RD

Serial Number Range: KW150830 - KW151173

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:
