### **Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

### **REASON FOR THIS SAFETY RECALL**

The Powertrain Control Module (PCM) on the above vehicles may have been manufactured with a suspect voltage regulator chip on the electronic circuit board. If the powertrain control module fails, the customer may experience a no-start, a start-and-immediate stall condition, or an engine stall while driving. **An engine stall while driving resulting in loss of motive power can cause vehicle crash without prior warning.**

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to replace the Powertrain Control Module. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2018.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
