RE: ASC Hydraulic Unit ECU Reprogramming Safety Recall Campaign
ATIN NO. ATIN-18-SR-008-A

.....

AFFECTED VEHICLES: 2017-2018 Outlander, 2018 Outlander PHEV, 2018 Eclipse Cross, 2018 Outlander Sport

PURPOSE

A safety recall campaign will be released today for ASC Hydraulic Unit ECU reprogramming on certain 2017-2018 Outlander built from August 1, 2016 to April 6, 2018; 2018 Outlander PHEV built from November 13, 2017 to April 9, 2018; 2018 Eclipse Cross built from December 26, 2017 to April 12, 2018; and 2018 Outlander Sport built from August 8, 2017 to April 13, 2018. **Do not sell or deliver any affected 2017-2018 Outlander, 2018 Outlander PHEV, 2018 Eclipse Cross, 2018 Outlander Sport until this recall has been performed.** Please check the Most Recent: Open Campaign List e-report to identify affected vehicles in your new vehicle inventory. The Recall Bulletin outlining the repair procedure will be available today on MEDIC and MDL.

The software for the Hydraulic Unit Electronic Control Unit (ECU) may be incorrect, possibly preventing the intervention of a safety system such as automatic emergency braking, Anti-lock Braking (ABS), Active Stability Control (ASC), or the Brake Auto Hold (BAH) function when any of these systems are in use. If the safety systems do not function as intended, it can increase the risk of a crash.

Notification letters are scheduled to begin mailing to owners of affected vehicles on October 16, 2018, requesting they contact their local Authorized Mitsubishi dealership to schedule an appointment to have this recall performed. **Some vehicles are also affected by SR-18-007 "FCM-ECU Reprogramming" campaign—please ensure that vehicles affected by both SR-18-007 and SR-18-008 have the FCM-ECU AND Hydraulic Unit ECU reprogrammed on the same visit.**

Affected new vehicle inventory VINs can be reviewed on the Mitsubishi Dealer Link in the Most Recent: Open Campaign List available under the service section of "e-reports." **Dealers must review the Warranty Superscreen to confirm if any vehicles in their new or used vehicle inventories are affected, and conduct this campaign prior to delivering them.** When checking for applicability of this campaign (C1809R), please check for and complete any other open campaigns. Always obtain the customer's approval before completing a campaign on a customer owned vehicle.

IMPORTANT

Affected new or used inventory vehicles must be repaired before the vehicle is sold/delivered. Dealers must check their inventory vehicles' VINs on the Warranty Superscreen to verify whether the vehicle is involved in this recall campaign. It is a violation of Federal law for a dealer to sell/deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by the notification under a sale or lease until the defect or noncompliance is remedied.
