## ***Attention: All Dealer Principals***

Kia Motors America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign to inspect and replace either the Main Relay or the Power Relay Assembly on some 2017-2018 MY Niro (HEV) vehicles produced from November 1, 2016 thru September 11, 2017. The Power Relay Assembly (PRA) is located underneath the rear seat and consists of various components, including the Main Relay. Inadequate connection between the Main Relay contacts can increase electrical resistance thereby generating heat. If sufficient heat is generated, thermal damage may occur to the rear seat, increasing the risk of a fire.

The Technical Service Bulletin that provides vehicle inspection and repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at [www.kiatechinfo.com](http://www.kiatechinfo.com) during the week of November 19, 2018.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected 2017-2018 MY Niro vehicles.

Kia will notify the vehicle owners beginning on **November 23, 2018**.

**NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.**
