Chronology of Defect / Noncompliance Determination

Provide the chronology of events leading up to the defect decision or test data for the noncompliance decision:

September 2018, DTNA received a report of a brake caliper with low torque on a vehicle at the Mt Holly manufacturing plant. The axle assembly plant was audited. The audit revealed that on certain vehicles, the specified process to fully torque fasteners may not have been followed, so proper torque cannot be guaranteed. October 2018, out of an abundance of caution, DTNA decided to initiate a voluntary safety recall for specific vehicles equipped with air disc brakes where the brake caliper mounting bolts may be incorrectly torqued.

Identify the Remedy

Describe the defect/noncompliance remedy program, including the manufacture's plan for reimbursement.

Potentially affected vehicles will be inspected and repaired as necessary. Repairs will be performed by Daimler Trucks North America authorized service facilities. Copies of the reimbursement plan will be submitted as a supplemental report when available.

Identify the Recall Schedule

Describe the recall schedule for notifications:

Customer notification will be made by first class mail using Daimler Trucks North America records to determine the customers affected.

Planned Dealer Notification Begin Date:	<i>12/03/2018</i>
Planned Dealer Notification End Date:	<i>12/03/2018</i>
Planned Owner Notification Begin Date:	<i>12/03/2018</i>
Planned Owner Notification End Date:	<i>12/03/2018</i>

Manufacture's identification code for this recall (if applicable): *FL-794*

Notice of Submission of Defect Information Report/Defect Information Notice **Subject: Brake Caliper Mounting Bolts**

Daimler Trucks North America has determined that a safety related defect exists in certain chassis manufactured by Freightliner Custom Chassis Corporation and delivered to your company. As the incomplete vehicle manufacturer of these products, Daimler Trucks North America is unable to provide the National Highway Traffic Safety Administration and/or Transport Canada with the information necessary to fully describe the vehicles potentially containing this defect as required by Title 49 Code of Federal Regulations Part 573.6(c)(2) and/or Motor Vehicle Safety Regulations Section 15(1)(b). Your company may have an obligation to report this information.

The attached Defect Information Report and Defect Information Notice were filed with the appropriate government agencies. Please refer to these notices for details regarding the nature of the defect, the remedy, and the expected date when the remedy without charge will be available to owners. Daimler Trucks North America will be conducting this recall and filing the quarterly reports required by Title 49 CFR §573.7 and/or MVSR §15(3). Repairs will be performed by authorized Daimler Trucks North America repair facilities.

A preliminary list of potentially affected vehicles delivered to you is included.

This is the first letter in regard to this recall that you will receive. You will receive another notice when Daimler Trucks North America notifies its dealers and owners that a remedy without charge for this issue is available.

If you have questions regarding this notice, please contact the Warranty Campaigns Department at (800) 547-0712, 7:00 a.m. to 4:00 p.m. Pacific Time, Monday through Friday, e-mail address DTNA.Warranty.Campaigns@Daimler.com.
