## **New Safety Recall Advanced Communication – UB6**

FCA US LLC (FCA US) has announced a safety recall on certain 2018 model year (JL) Jeep® Wrangler vehicles.

VINs identified as being involved in this campaign are currently live and searchable.  
**Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

### **REASON FOR THIS SAFETY RECALL**

Some 2018 MY Jeep Wrangler Unlimited vehicles may have been built with a right rear door latch that is off location, which may cause the outside door release handle link to bind on the latch reinforcement and potentially result in a non-latch condition. If the outside door release handle link does bind on the latch reinforcement, the right rear door may open unexpectedly due to road or driving conditions, or occupant contact with the door. A vehicle door that opens unexpectedly may result in occupant ejection or increase the risk of injury in the event of a crash.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to repair the right rear door latch reinforcement. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4<sup>th</sup> Quarter of 2018.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
