From Parts Operations

Subject 2018-19 Odyssey Power Sliding Door Rear Latch Kit Availability

On November 9, 2018, American Honda notified NHTSA of a safety recall and stop sale for certain model year 2018 and a small number of 2019 Odyssey vehicles due to concerns related to the rear passenger power sliding doors.

Since launch, American Honda has been allocating kits to dealers weekly. Although inventory is still limited, effective Friday December 21st, Odyssey Power Sliding Door Rear Latch Kits are available for dealer ordering. To ensure continued supply for all customers, please order only the amount of parts you immediately need for your scheduled repairs.

Thank You,

American Honda Parts Operations
