

## **IMPORTANT SAFETY RECALL**

Dear Sir/Madam:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

American Technology Components, Inc. (ATC) has decided that a defect which relates to motor vehicle safety exists in certain 7-way wiring harnesses supplied to Truck Accessories Group, Inc. beginning in August 2017. ATC is conducting a safety recall to address this issue. Distributor and/or dealer records indicate that one of the recalled harnesses may have been installed with your truck cap.

### **!! IMPORTANT !!**

- **The wiring harness sold with your Truck Accessories Group truck cap is being recalled by the harness manufacturer, American Technology Components, Inc., due to a risk of fire.**
- **You should immediately take your truck to the dealer to have the harness replaced.**

#### **What Parts are Affected?**

This recall affects the following part numbers that have a “work order” (w/o) number within the range 134287 through 137184:

<b>Part No.</b>	
138359	202060
140259	202061
201055	142672
201056	142673

For example:

**Why is a recall being conducted?**

ATC has learned that the wiring harness encasement may cause a thermal event around the wires, which may lead to melting of the encasement, smoking and, in some instances, fire. If a fire occurs, there is an increased risk of personal injury or property damage. Additionally, the defect could result in a malfunction of the logic circuit that can cause the center high-mounted stop lamp (CHMSL) on the truck cap to operate incorrectly, which can generate in-dash error codes.

**What are we doing about the problem?**

ATC is offering a repair program free of charge (parts and labor) to TAG customers that have purchased the recalled wiring harness.

**What should you do?**

You should immediately contact your installing dealer to arrange to have the harness replaced.

**What if you no longer own this truck cap with the wiring harness?**

If you no longer own this wiring harness, but have the contact information for the new owner, please forward the new owner's contact information to ATC so that proper notification can be sent. Notification can be sent to the following address:

Ref. 7-Way Recall

Email: [maya@atcomp.com](mailto:maya@atcomp.com)

Phone: (574) 322-3714

Address: 2905 LaVanture Place, Elkhart, IN 46514

**Who should you contact if you have further questions or concerns?**

If you have additional questions or concerns, please feel free to contact ATC, toll free, at the following number: (800) 238-2687.

**If you are the lessor of a vehicle with a truck cap that has the wiring harness:**

Please forward a copy of this notice to the lessee as soon as possible and, in any case, within ten days to comply with federal regulations.

If, after having attempted to take advantage of this recall, you believe you have not been able to have your wiring harness remedied without charge and within a reasonable amount of time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington D.C., 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience this safety recall may cause, but your safety is our first concern.

Sincerely,

American Technology Components, Inc.
