The reason for this notice:

On affected units, the strength of certain gears in the transmission may not be sufficient. This could cause the gear(s) to break due to excessive impact force during certain manners of shifting. The breakage of transmission gear(s) may cause the loss of control increasing the risk of a crash. Our records indicate that you have purchased one of these units.

What Kawasaki and your dealer will do:

Kawasaki has authorized your dealer to replace the affected transmission gears free of charge. The actual repair will take up to two and a half hours but may take longer due to scheduling at the dealership and the time needed to obtain required parts.
