Compliance Recall Notice 18C02 / NHTSA Recall 18V-141

Mr. John Sample
123 Main Street
Anywhere, USA 12345

Your Vehicle Identification Number (VIN): 12345678901234567

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that your vehicle, with the VIN shown above, fails to conform to Federal Motor Vehicle Safety Standard (FMVSS) 114, Theft Protection and Roll Away Prevention.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue? Your vehicle may have been built with an incorrect transmission selector lever assembly. This may allow the ignition key to be removed when the selector lever is in a position other than “park”.

What is the risk? If you remove the ignition key with the transmission in a position other than “park”, the vehicle could roll away, increasing the risk of a crash.

What will Ford and your dealer do? **Parts are now available to repair your vehicle.** Ford Motor Company has authorized your dealer to replace the transmission selector lever assembly free of charge (parts and labor).

How long will it take? The time needed for this repair is less than one half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What should you do? Please call your dealer without delay and request a service date for Recall 18C02. Provide the dealer with your VIN, which is printed near your name at the beginning of this letter.

If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps, and driving instructions.

**What should you do?
(continued)**
