## **IMPORTANT SAFETY RECALL**

**See enclosed VIN list.**

### **Subject: FCCC Bus Chassis Battery Cable Interference**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC, on behalf of its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect which relates to motor vehicle safety exists on Freightliner Custom Chassis B2 school bus (Thomas Built Buses Saf-T-Liner C2) and S2C shuttle bus chassis manufactured March 10, 2017, through March 6, 2018.

On certain vehicles, a battery power cable may be routed with inadequate clearance between the cable and a battery hold down bracket. This reduced clearance may cause the cable to rub against the hold down bracket, potentially damaging the cable and leading to arcing, which may increase the risk of a fire.

The power cable will be inspected and rerouted for proper clearance when required.
