IMPORTANT SAFETY RECALL

Brake Tube Hoses

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2018 model year (DP) RAM 4500/5500 Cab Chassis] vehicles.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The primary and secondary brake tube hoses on your truck ^[1] may have been produced with no anti-corrosion plating on the ferrules. Anti-corrosion plating is required to meet FCA US LLC long-term durability corrosion requirements. **The ferrules on both brake hoses, in certain circumstances, may prematurely corrode and develop a brake fluid leak simultaneously and potentially result in a partial or complete loss of brake function. Loss of brake function can cause a vehicle crash without prior warning.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will inspect the brake tube hoses for the Julian date code marking and replace if needed. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The estimated repair time is **two hours**. We recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.
