**IMPORTANT SAFETY RECALL – Recall No. XXXXXXXXXXXXXXXXXXXX**

Automobili  
Lamborghini America LLC

**This notice applies to Your Lamborghini Aventador with the VIN XXXXXXXXXXXXXXXXXXXX**

Dear Lamborghini Owner, Lessee,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Automobili Lamborghini S.p.A. has decided that a defect, which relates to motor vehicle safety, exists in certain Model Year 2012-2018 Aventador Coupè and Roadster vehicles. Our records indicate that you are the owner of a vehicle in this recall.

**Why are we contacting You?**

Please contact your authorized Lamborghini dealer immediately to schedule an appointment to have this important free update performed as soon as possible. You can locate your nearest authorized Lamborghini Dealer at <https://www.lamborghini.com/en-en/ownership/dealer-locator>

**What is the issue?**

The affected vehicles might, under certain driving conditions (accelerator pedal released and below 2000 rpm in conjunction with automatic shifts from high to low gears, in the idle approach) present an engine stall event without warning. An engine stall can increase the risk of a crash.

In the mentioned conditions, the estimation of the fuel flow through the purge valves made by the engine software may lead to an irregularity of the idle with consequent possible engine stall.

The engine can switch off at low rpm therefore compromising the servo steering and brake booster functionalities, increasing the risk of a crash. However, it is still possible to restart the engine after the problem occurrence.
