Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG ("DAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2017 G-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

DAG, has determined that on certain G-Class AMG vehicles (463 platform), the speed limitation in reverse gear might not meet internal specifications. If during vehicle operation, the driver makes abrupt changes in steering while exceeding 16 mph while in reverse gear, the vehicle could become unstable which could lead to a vehicle rollover, increasing the risk of injury to the vehicle's occupants.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will update the engine control unit software. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
