This notice applies to your Genesis G80, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Genesis has decided that a defect which relates to motor vehicle safety exists in certain 2018 Genesis G80 vehicles produced between January 18, 2017 and April 23, 2018.

You have received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

### What is the condition?

The subject vehicles are equipped with an Occupant Classification System ("OCS") that classifies the occupant type as an adult, a child, or a child restraint seat. The OCS control module may have been programmed incorrectly causing an erroneous detection of an adult in the passenger seat when the passenger seat is unoccupied or occupied by an infant or child. If an infant or child is seated in the front passenger seat and the OCS system does not deactivate the passenger front airbag during a crash, the child or infant could be injured by the airbag.

### What will Genesis do?

Your Genesis retailer will reprogram the OCS in your G80 vehicle at **NO CHARGE** to you.

### What should you do?

**Please contact your nearest Genesis retailer to schedule the recall repair as soon as possible.**

The actual time required to perform the procedure is less than 1 hour, however your vehicle may be needed longer; therefore, we recommend scheduling a service appointment to minimize inconvenience. You may arrange in advance for a Service Rental vehicle using Service Valet should you require alternate transportation during the service period.
