IMPORTANT SAFETY RECALL

Low Brake Pedal

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2018 model year (JC) Dodge Journey, 2018 and 2019 model year (RT) Dodge Caravan, 2018 and 2019 model year (MP) Jeep Compass, and 2019 model year (KL) Jeep Cherokee] vehicles.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The rear brake calipers on your vehicle ^[1] may have out-of-specification chrome coating on the pistons, which may cause gas pockets to form in the brake system. In some instances, the brake pedal may exhibit increased travel and/or feel soft after vehicle start. **Gas pockets in the brake system may result in a reduction in rear brake performance, which can cause a vehicle crash without prior warning.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will bleed the entire brake system to remove any gas pockets. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The estimated repair time is two hours. We recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.
