Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (“DAG”), the manufacturer of Mercedes-Benz vehicles, has decided that certain Model Year (“MY”) 2018 GLC-Class vehicles fail to conform to Federal Motor Vehicle Safety Standard (“FMVSS”) number 108 (Lamps, Reflective Devices, and Associated Equipment). Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

Daimler AG (“DAG”), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year (“MY”) 2018 GLC-Class (253 platform) vehicles equipped with light emitting diode (LED) headlamps, the front turn signal lights may be pink/violet in color. As a result, though the turn signal function is not affected, the legal requirements of FMVSS108 §6.1.2 may not be met. Turn signals that are the wrong color may not be as easily recognized by other drivers, increasing the risk of a crash.

**What will your DEALER DO?**

An authorized Mercedes-Benz dealer will check the turn signal LED modules and replace them, if necessary. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **1 hour**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

**What should YOU DO?**
