

## **IMPORTANT SAFETY RECALL**

This notice applies to your 2019 Grand Design Reflection 295RL, VIN 573FR34 [REDACTED]

October 8, 2018

Dear Grand Design RV Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Grand Design RV has decided that a defect which relates to motor vehicle safety may exist with the outside 110V receptacle (outlet) on your recreational vehicle.

### **! IMPORTANT !**

- Your vehicle falls within the recall population.
- You should immediately schedule an appointment with your dealer to have your vehicle inspected and repaired.
- **Do Not** use the entry door-side 110V outside receptacle (outlet) until the recall repairs have been completed.

#### **Why is a recall being conducted?**

On select 2019 Reflection 295RL Fifth-Wheel vehicles manufactured between July 25, 2018 and August 9, 2018, the 110V entry door-side receptacle (outlet) is not ground-fault (GFI) circuit protected. As a result, in the event of an electrical failure with an appliance and/or component plugged into this outlet there is the potential for electrical shock, increasing the risk of injury.

**What are we doing about the problem?**

On affected vehicles, dealers will install a new ground-fault (GFI) outlet and properly wire this outlet to provide ground-fault protection. Grand Design dealers have been notified of this recall and have the required repair instructions available. Repair is estimated to take no more than 1 hour. There will be no charge for this service.

**What should you do?**

Contact your selling or nearest Grand Design RV dealer as soon as possible to schedule an appointment. If your distance from a Grand Design dealer is significant, please contact us at 574-825-9679 so we can work with you to make other arrangements to have the needed repairs completed. You should not use your entry door-side 110V outside electrical outlet until the recall repairs have been performed.
