IMPORTANT SAFETY RECALL 18514

NHTSA RECALL NO. 18V-644

This notice applies to your vehicle identified on the enclosed card.

Dear INTERNATIONAL® Customer,

This notice applies to your vehicle identified on the enclosed card. This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2018 and 2019 HV® and MV® series trucks built 30 March 2017 thru 28 August 2018 with feature code 08HAH or 08TMG (combined trailer stop/turn lamps).

REASON FOR THIS RECALL

If a truck is operating with a trailer attached and the electrical connection is made between the truck and the trailer, the trailer brake lights in the combined stop/turn lamps may not illuminate when the truck service brakes are applied. Inoperative trailer brake lights may fail to warn other motorists that the combined truck and trailer is slowing or stopping.

RISK TO MOTOR VEHICLE SAFETY

Failure to warn other motorists that the combined truck and trailer is slowing or stopping may increase the risk of a vehicle crash which may result in property damage or personal injury.

DEFECT REMEDY

The repair will involve relocating the trailer brake light circuits to the vehicle brake light circuits. Dealers have parts and instructions to repair your vehicle. The repair will be performed free of charge and take approximately 45 minutes to complete.
