IMPORTANT SAFETY RECALL 18518

NHTSA RECALL NO. 18V-826

This notice applies to your vehicle identified on the enclosed card.

Dear INTERNATIONAL® Customer,

This notice applies to your vehicle identified on the enclosed card. This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2018 and 2019 HV®, HX®, LT®, MV®, RH®, LoneStar®, ProStar®, WorkStar®, and TranStar® model trucks built 04/20/2017 thru 07/21/2018 with feature code 11MHG or 11MGP (Eaton ECA clutch).

REASON FOR THIS RECALL

An internal component within the clutch assembly may fail, which in special circumstances could inhibit clutch disengagement resulting in the transmission to not achieve neutral when commanded by the driver.

RISK TO MOTOR VEHICLE SAFETY

A clutch that does not disengage and allow the transmission to achieve neutral could result in driveline torque to overcome the parking brake and unintended vehicle motion and increase the risk of a vehicle crash.

DEFECT REMEDY

The repair will involve recalibration of the Transmission Control Module (TCM). Dealers have software and instructions to repair your vehicle. The repair will be performed free of charge and take approximately 45 minutes to complete.

ACTIONS YOU SHOULD TAKE

If you own this vehicle, repairs can be completed yourself if you have the Eaton Service Ranger Diagnostic Tool and work through Eaton for payment or please schedule an

appointment with any INTERNATIONAL® dealer to have your vehicle repaired. You can find your nearest dealer by calling 1-800-448-7825 or by using the dealer locator at <http://www.internationaltrucks.com>.

Present your original repair paperwork and proof of payment to any INTERNATIONAL® dealer and your eligibility will be reviewed. You may also submit a claim using the enclosed Request for Reimbursement card.
