Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2018-2019 C-Class and GLC-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain Model Year 2018 - 2019 C-Class and GLC-Class vehicles (205 and 253 platforms), the status of the passenger airbag might be displayed incorrectly in the center console, which might cause the driver or passengers to be incorrectly informed of the passenger airbag status. In such a case, the driver or passengers might not be able to rely upon the displayed status of the front passenger airbag as correct, which could increase the risk of injury for the front passenger in the event of a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will update the head unit software for the affected vehicles. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **approximately 45 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
