Dear Mercedes Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG ("DAG"), the manufacturer of Mercedes Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2019 C Class Coupe/Cabriolet, S Class, and E Class Coupe/Cabriolet vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

DAG determined that on certain MY19 C Class Coupe/Cabriolet, S Class, and E Class Coupe/Cabriolet vehicles (205, 222, and 238 platforms) the switches in certain front seatbelt buckles might not meet production specifications, which could cause a correctly fastened seatbelt to be incorrectly detected as unfastened. In this case the fasten seatbelt warning lamp would illuminate and the tensioning functions of the seatbelt would not be activated in the event of a crash, increasing the risk of injury for the occupants.

What will your DEALER DO?

An authorized Mercedes Benz dealer will replace the front seatbelt buckles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **2.5 hours**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
