Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG ("DAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2019 GLC-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

DAG decided that on certain MY 2019 GLC-Class (253 platform) vehicles, an internal sensor within the electric power steering unit might not meet production specifications. This could result in a failure of the power steering sensor, leading to deactivation of the power steering assist. A loss of electric power steering assist can increase the risk of a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will replace the electric power steering unit on the affected vehicles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **4 hours**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

What should YOU DO?
