

IMPORTANT SAFETY RECALL

December 2018

This notice applies to your vehicle, VIN: _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2019 Chevrolet Silverado 1500 and GMC Sierra 1500 Crew Cab trucks. These vehicles have a retainer ring within the passenger-side airbag module that may have been damaged during the assembly process. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT
<ul style="list-style-type: none"> • Your vehicle is involved in GM safety recall N182198820. • Schedule an appointment with your GM dealer. • This service will be performed for you at no charge.

Why is your vehicle being recalled? Some 2019 Chevrolet Silverado 1500 and GMC Sierra 1500 Crew Cab trucks have a retainer ring within the passenger-side airbag module that may have been damaged during the assembly process. This damage could allow gas to escape during airbag inflation and deployment, which would reduce the amount of gas available to fill the airbag. A passenger-side airbag that does not fill properly may increase the risk of injury in certain crashes in which the passenger-side airbag is commanded to deploy.

What will we do? Your GM dealer will replace the instrument panel airbag. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual time of approximately 2 ½ hours.

What should you do? You should contact your GM dealer to arrange a service appointment as soon as possible.

Do you have questions? If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
