As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

It has been decided that the vehicles in the recall population may have a quick disconnect rubber propane line that is incorrectly routed allowing the grill to be stored with the fuel source on. The remedy is to replace the quick disconnect rubber propane line and route it in a manner in which it must be disconnected before stowing the grill. The service and parts required for this corrective action will be provided at no charge to you.

***What we
