- This repair will be provided free of charge.

Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG ("DAG"), the manufacturer of Mercedes-Benz vehicles, has decided that certain Model Year ("MY") 2018 C-Class vehicles fail to conform to Federal Motor Vehicle Safety Standard ("FMVSS") number 108 (Lamps, Reflective Devices, and Associated Equipment). Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain C300 and C300 4MATIC vehicles (205 platform), the low beam headlamp setting may not correspond to current production specifications. As a result, your vehicle's headlamp setting may not comply with the requirements of Federal Motor Vehicle Safety Standard 108. If the low beam headlamp is not properly adjusted, it could reduce visibility of the roadway, increasing the risk of a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the headlamps and adjust them if necessary. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **approximately 1 hour**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

What should YOU DO?
