This notice applies to your Hyundai, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above. Hyundai is conducting a safety recall in the United States to confirm the high pressure fuel pipe was properly installed by Hyundai dealers to the fuel pump outlet when the engine was replaced under recalls 132 and 162. Our records indicate that your vehicle is affected.

What is the problem?

In some cases, during engine replacements under recall campaigns 132 and 162, the high pressure fuel pipe may have been damaged, misaligned, or improperly torqued during the engine replacement procedure, allowing fuel to leak. A fuel leak in the presence of an ignition source can increase the risk of a fire.

What will Hyundai do?

Your Hyundai dealer will inspect the connections of the high pressure fuel pipe to the fuel pump outlet for fuel leaking. If leaking fuel is detected, the fuel pipe will be replaced and properly installed with a new one.

What should you do?

Please contact your nearest Hyundai dealer to schedule the recall repair as soon as possible.

The actual time required to inspect your vehicle will take less than one hour, however if replacement of your vehicle's fuel pipe is required, your vehicle may be needed longer; therefore we recommend scheduling a service appointment to minimize inconvenience.

If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days. If you have other questions

If you require further assistance, you may contact the Hyundai Customer Care Center at 1-855-371-9460. If you believe that the dealer or Hyundai has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <https://www.safercar.gov>.

Thank you for your attention to this important safety matter. We apologize for any inconvenience this may have caused you.
