

RECALL

Ambulance Bus Litter Support Clamp

**Models Affected: 2007 through 2019 Model Year
All American Buses with Ambulance Litters**

ISSUE

The top litter hanger support clamp may develop a crack and fail allowing litter to fall.

CORRECTIVE ACTION

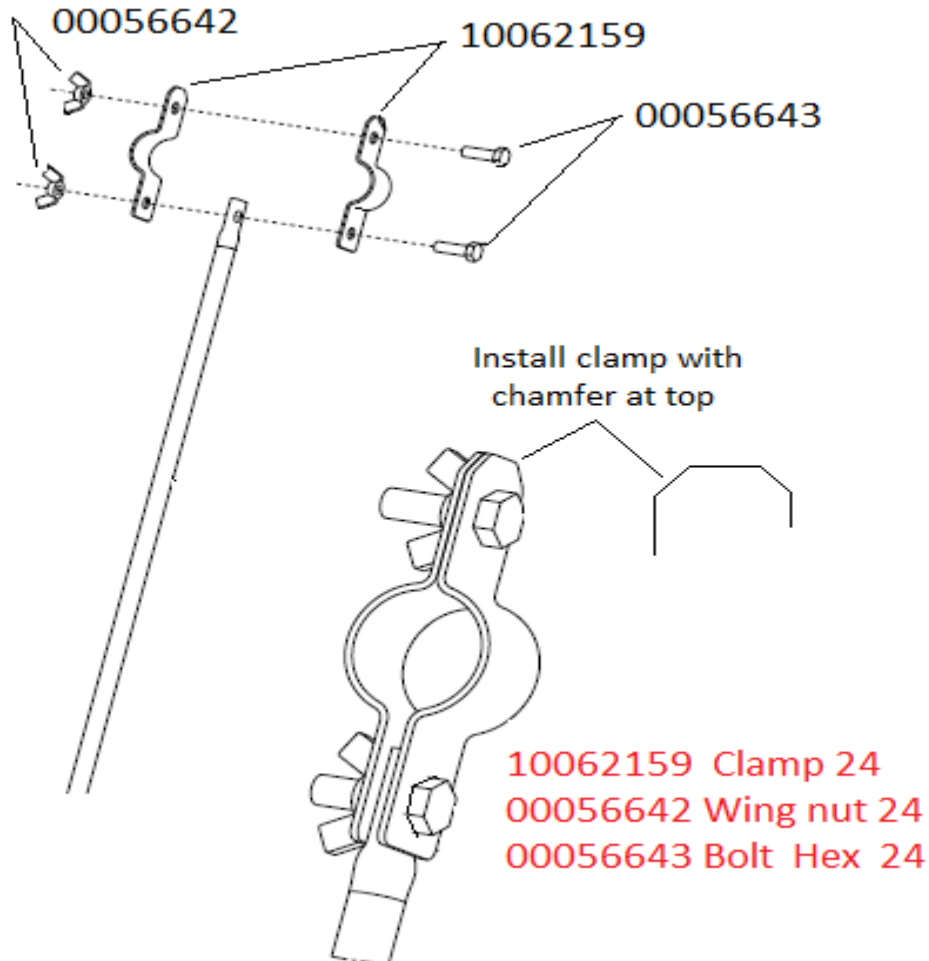

Remove the current clamps, 12 per unit and replace with the new clamps and fasteners.

PROCEDURE

WARNING: Always follow all Federal, State, and Local and Shop safety standards and use proper safety equipment, and thoroughly read and understand all instructions before performing these procedures.

Clamp Removal and Installation

1. Park bus on level surface, apply parking brake, turn of ignition key, and chock wheels.
2. Remove 5/16 wing nut and bolt from the upper loop clamp, remove current loop clamp.
3. Install the new support clamp assy. one at the front and one at the rear of each litter.
