**SUBJECT: SAFETY RECALL OF 2006~2010 SETRA S417 COACHES**

Ref.: **NHTSA recall reference # 18V-106**  
**Transport Canada recall # 2018-089**  
**Setra Bulletin # TI 72.40M10699B**

Dear Setra Owner,

This notice is sent to you in accordance with the requirements of the U.S. National Traffic and Motor Vehicle Safety Act and the Canadian Motor Vehicle Safety Act.

Setra has decided that a defect (details below) which relates to motor vehicle safety exists in certain 2006~2010 S417 vehicles. Setra therefore has initiated a recall of these vehicles. Our records indicate that your vehicle is included in this group.

**You were originally notified of this recall on March 21, 2018 and renotified in August 2018 to include REV Group contact details. If repairs have already been completed on your affected vehicle, please disregard this message.**

The anti-entrapment strip of the pneumatic outward swiveling entry door may not function after door actuation. If the door does not function as intended, it can increase the risk of injury.

Setra will remedy this by the retrofitting, free of charge, of a bridging cable to the door control unit to avoid the possible deactivation of the anti-entrapment feature. Details are outlined in the repair procedure number TI 72.40M10699B. Please allow for one (1) hour to schedule and complete the repair.

**If you need further information, please call the REV Coach – Setra Customer Service line at 844-333-2693.**

Setra strongly urges you to perform the recall inspection work on your vehicle(s) as soon as possible.

For reimbursement of the repair, please submit a completed Setra Warranty Claim Form, as follows:
