Monday-Friday, 7 a.m. to 7 p.m. CT,  
Saturday, 7 a.m. to 4:30 p.m. CT.

## FAST

This repair will take approximately 2 hours.

<John>,

Our records indicate that this URGENT SAFETY RECALL has not been completed on your vehicle.

An electrical short in your <Year> <Model> airbag system could cause the airbag warning lights to illuminate and the airbag(s) and seat belt pretensioner(s) to become deactivated, or it could cause those systems to inadvertently deploy, which could increase the **RISK OF SERIOUS INJURY OR CRASH.**

Un cortocircuito eléctrico en el sistema de la bolsa de aire de su vehículo podría hacer que las luces de advertencia de la bolsa de aire se iluminen y la bolsa(s) de aire y los sensores de tensión del cinturón de seguridad se desactiven, o podría hacer que esos sistemas se desplieguen inadvertidamente, lo que podría aumentar el **RIESGO DE LESIONES GRAVES O COLISIÓN.**
