We will contact you again once parts are available.**

Dear Valued Freightliner Sprinter Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Vans USA has decided that a defect, which relates to motor vehicle safety, exists in certain Model Year 2013 Freightliner Sprinter vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

Your passenger-side airbag is affected by this recall based on the defect decision of TK Holdings, Inc. ("Takata"). Under certain circumstances during a crash that necessitates frontal airbag deployment, the defect in your passenger-side airbag inflator may cause the inflator housing to rupture. A passenger-side inflator rupture during deployment could result in metal fragments striking the front passenger or other occupants, possibly causing serious injury or death.

What will MBUSA do?

We want to assure you that Daimler Vans USA, through our parent company Daimler AG, is taking all necessary measures to remedy this situation for you. We are also working closely with the National Highway Traffic Safety Administration ("NHTSA") and airbag suppliers to provide a remedy as soon as possible, and to prioritize repairs according to risk factors identified through testing. **Unfortunately, replacement parts are not yet available for your vehicle, and we will contact you again once parts become available.**

What should YOU do?

To enter your most recent contact information from your smartphone, scan the QR code to the left.

As soon as a suitable replacement part is available for your vehicle, we will send another letter notifying you to bring your vehicle to your local Authorized Freightliner Sprinter dealer to repair your vehicle free of charge.
