

IMPORTANT SAFETY RECALL

Mr.

Downers Grove IL 60515-1166

June 21, 2018

**This notice applies to your vehicle: WPOCA2A15I
NHTSA Recall Number: 18v-287**

**Subject: Porsche Safety Recall AJ04 - Replacing Longitudal and Transverse Control Arms on
Front Axle and Rear Axle**

2015 918 Spyder

Dear Mr.

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that a defect which relates to motor vehicle safety exists in certain model year 2015 918 Spyders. Internal tests have shown that the longitudinal and transverse control arms installed on the affected vehicles may be prone to corrosion. The durability of these components cannot therefore be unequivocally guaranteed. If the longitudinal or the transverse control arms crack due to corrosion, vehicle handling may be affected. This can therefore increase the risk of a crash. Our records show that you are the owner of a vehicle affected by this action.

Porsche is conducting a safety recall and the affected components will be replaced at no charge to you. The replacement parts required for remedying your vehicle are currently being manufactured as a matter of high priority. Unfortunately, at this time, parts are not available. Be assured we will keep both you and your authorized Porsche dealer abreast of the necessary parts availability so that repairs may be scheduled as soon as possible.

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten days of receipt.

This recall will be carried out at no expense to you. If you previously paid to have this repair performed, you may be eligible for reimbursement. For more information, please contact us at the address or phone number below.

Please be aware that if, after we have notified you that replacement parts for your vehicle are available, you require any assistance in making an appointment to have this recall performed, please call or write:
