IMPORTANT SAFETY RECALL NOTICE

TO: All Trailstar Dealers

Trailstar has determined that a defect which relates to motor vehicle safety exists in certain Trailstar Dump trailers built from January thru July 2018 and equipped with axles supplied by AXN Heavy Duty. Accordingly, a recall to address this issue is being initiated effective September 4, 2018.

The defective axles have an improperly installed Pro-Torq Retaining Clip that must be inspected and possibly re-installed. An improperly installed retaining clip could lead to wheel end failure and separation from the axle. Operating a vehicle with a defective axle could lead to a crash without prior warning. Based on the possible catastrophic failure of these units we are urging our customers to contact their nearest local service center or Trailstar Dealer and make arrangements to have their axles inspected and repaired if necessary.

Owners will be notified by mail about the recall and will be instructed to make arrangements to have their AXN axles inspected and repaired as necessary or for general questions related to the recall to contact AXN Heavy Duty at 1-502-882-9122. There is no cost to owners for this recall.

Please be reminded that it is a violation of Federal law for you to sell or lease the Trailstar dump trailers covered by this notification until this recall has been performed on these AXN axles. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact Tom Hahn at 330-821-9900.

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Sincerely,
Tom Hahn
President
