

UPSTREAM TECHNICAL SERVICE Takata Passenger AirBag Recalls

New Takata passenger Airbag Recalls – XF (X250) J071, J072 & Range Rover (L322) P083, P084

- Initial Retailer notification was January 11th.
- All affected vehicles were flagged in DDW Jan 11th. No new unsold cars affected
- Planned January launch of Technical Service Bulletins has been delayed through Engineering and Global Service team. These will now be published by Feb 9th.
- TOPIX flags will be set when TSB(s) are published.
- In accordance with regulations an interim customer mailing is planned by Feb 28th.
- 2nd owner notification requesting owners make repair appointments will be mailed in batches by priority groups throughout 2018.
- Prior to 2nd owner notification that remedy parts are available these bulletins are being published to support customers who request an immediate repair. Parts are available now to support this activity.
- Please email any questions on Takata recalls to recallq@jaguarlandrover.com.
