Details of the Repair

You and your passengers are at risk of **death or serious injury** if you ignore this notice. The airbag in your vehicle is defective and has been recalled. If not

repaired it could explode and shoot metal pieces inside your vehicle, killing or injuring everyone in its path. Two driver side airbags installed in pickup trucks like yours have already exploded causing fatal injuries.

This could happen even when involved in a minor crash – at very low speed.

Dealers will arrange a **FREE** tow of your vehicle and replace the driver side and passenger frontal airbag inflators for **FREE**. If necessary, Mazda will provide alternate transportation for **FREE** while your vehicle is at an authorized Mazda dealership for this **FREE** repair. It is urgent that you schedule this **FREE** safety recall – immediately!
