***** IMPORTANT SAFETY RECALL *****
(PROGRAMA DE SEGURIDAD IMPORTANTE)

Safety Recall Notice 17S34 / NHTSA Recall 17V-668
Aviso de Revisión de Seguridad 17S34

Your Vehicle Identification Number (VIN): See Listing

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue?

On your vehicle, it may be possible for water to collect and splash in the driver's side footwell area of the vehicle where the Trailer Module that controls trailer lighting is located. Water intrusion may cause wiring corrosion and damage to the Trailer Module.

What is the risk?

Trailer Module water intrusion may result in rapid flashing of the turn signals, loss of instrument cluster display, loss of heater and air conditioning controls, and loss of multimedia (radio, display screen, SYNC). Wiring corrosion from prolonged water intrusion could also result in an electrical short, which could cause an uncommanded seatbelt pretensioner deployment, a burning smell, and/or an increased risk of fire, including when the vehicle is parked and the ignition is off.

What will Ford and your dealer do?

Ford Motor Company is working closely with its suppliers to produce parts for this repair. When parts become available, Ford Motor Company will notify you via mail to schedule a service appointment with your dealer for repairs to be completed free of charge (parts and labor). Parts are anticipated to be available within the first quarter of 2018.
