**In-Car / In-App Communication – Safety Recall Reminder**  
**16 Jan 2024**

**Title:**

BMW Safety Recall 18V-453: Rear Brakes

**Text:**

The rear brake calipers may not have been produced to specifications by the supplier which could cause air pockets to form within the rear brake system. When pressing the brake pedal, an increase in pedal travel may occur along with a reduction in rear brake performance. This could increase the stopping distance, and the risk of a crash. The front brakes are not affected and remain fully functional.

Contact an authorized BMW center immediately to get your vehicle repaired for FREE. Dealer locator: [bmwusa.com/dealer](http://bmwusa.com/dealer).

Advise all drivers of this important information.
