SAFETY ADVISORY 18-326**Safety Recall:**

Tabatha , Title

US: 18V-469

Dealer , Dealer Number

CAN: 2018-390

ballt@keystonerv.com

Dear Tabatha

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2018-2019 Dutchmen Aerolite Travel Trailers. As a result, Keystone RV is conducting a safety recall.

Reason for This Recall

It has been decided that the vehicles in the recall population were built with safety chains that are underrated for the Gross Vehicle Weight Rating (GVWR). If the vehicle becomes detached from the tow vehicle, the safety chains may not carry the weight of the unit as designed, leading to an increased risk of property damage and or vehicle crash. The vehicles included in the recall are:

2018-2019 Dutchmen Aerolite Travel Trailers, Model 2843BH

Serial Number Ranges: JP910566 - JP911096, KP910034 - KP910364

VINs in Your Inventory

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs on campaign # 18-326.

Advisory Instructions

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please [click here for a copy of the Safety Advisory 18-326](#) which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANYRick Deisler
