SAFETY ADVISORY 18-328

Safety Recall:

,

US: 18V-499

,

CAN: 2018-415

Dear

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2019 Keystone Summerland Travel Trailers. As a result, Keystone RV is conducting a safety recall.

Reason for This Recall

It has been decided that the vehicles in the recall population have a propane bottle bracket with 2 mounting legs that may break at the mounting point. Under certain conditions during travel, the bracket can break at the mounting point allowing the propane bottle to become detached from the frame of the unit leading to an increased risk of property damage and/or personal injury. The vehicles included in the recall are:

**2019 Summerland Travel Trailers, Models 1800BH, 1760BH, 1750RD
Serial Number Range: KW150830 - KW151173**

VINs in Your Inventory

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs on campaign # 18-328.

Advisory Instructions

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please [click here for a copy of the Safety Advisory 18-328](#) which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
