

T-18-03 CONSUMER EMAIL

Body

Dear Polaris Slingshot Owner,

Our records indicate that you are the owner of a Slingshot affected by Safety Recall **T-18-03** that was announced on August 16th, 2018.

Polaris has identified a concern with the seat belt safety system used on some Slingshot models. In the event of a side-impact collision, the seat belt retractor mechanism on the side opposite the collision (e.g. the driver's side in a passenger-side impact) may be compromised, which may cause it to fail. Failure of the seat belt retractor mechanism may increase the risk of injury. A letter will arrive at your address by postal mail that provides more information about the update and what you should do next.

Visit our [On-Road Safety Recall](#) page to verify if your Slingshot is impacted by this recall. Your local POLARIS dealer can be found on our [Dealer Locator](#) page. Contact your dealer to schedule a service appointment or complete a transfer of ownership if you no longer own the vehicle.

While your dealer is in the best position to answer your questions, you can also call our Customer Service department at **1-800-POLARIS (1-800-765-2747)** to speak with a representative.

Sincerely,

Polaris Service
