SAFETY ADVISORY 18-330
Safety Recall: US: 18V-651
CAN: 2018-530

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2016-2019 Keystone Fuzion and Impact Fifth Wheels and Travel Trailers. As a result, Keystone RV is conducting a safety recall.

It has been decided that the vehicles in the recall population have brake wiring that may touch the tires or wheels while the vehicle is in motion. Under certain conditions during travel, if the brake wires rub against the wheel or tire, there is an increased risk of property damage and poor vehicle handling.

The vehicles included in the recall are:

2016 Fuzion GF810853 - GF811149
2016 Impact GF815466 - GF815717

2017 Fuzion HF810000 - HF811107
2017 Impact HF815000 - HF815805

2018 Fuzion JF810000 - JF811183
2018 Impact JF815000 - JF815936

2019 Fuzion KF810000 - KF810304
2019 Impact KF815000 - KF815171

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs in campaign # 18-330.

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please [click here for a copy of the Safety Advisory 18-330](#) which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
