SAFETY ADVISORY 18-339  
Safety Recall: US: 18V-790  
CAN: 2018-627

Tabatha, , [ballt@keystonerv.com](mailto:ballt@keystonerv.com)

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2018-2019 Keystone Raptor Model 353TS Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

It has been determined that on some 2018 and 2019 Raptor fifth wheels, the rear tires may come in contact with an outrigger. The tires and frame outriggers touching during travel may lead to an increased risk of property damage and poor vehicle handling. The vehicles included in the recall are:

### 2018-2019 Raptor, Model 353TS

Serial Number Ranges:  
2018 JR800174 - JR800902  
2019 KR800029 - KR800268

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs in campaign # 18-339.

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please [click here for a copy of the Safety Advisory 18-339](#) which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,
