Mr. Dan Stoltzfus
Vice President of Operations
ASA Electronics, LLC.
2602 Marina Drive
Elkhart, IN 46514

NEF-150KL
19E-069

Subject: Relay/Capacitor Modules May Fail/FMVSS 111

Dear Mr. Stoltzfus:

This letter serves to acknowledge ASA Electronics, LLC.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

ASA/RELAY/CAPACITOR MODULE/9999

Mfr's Report Date: October 11, 2019

NHTSA Campaign Number: 19E-069

Components:

BACK OVER PREVENTION: SENSING SYSTEM: CAMERA

Potential Number of Units Affected: 3,775

Problem Description:

ASA Electronics, LLC. (ASA) is recalling certain Relay/Capacitor Modules in part number PVOM74MMFFK, which was the remedy part in prior recall 19E009 for Voyager rear camera displays. The modules may prematurely fail, causing the Voyager rear camera display to have a loss of power. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 111, "Rearview Mirrors."

Consequence:

Without the mirror monitor, the driver may not be able to see hazards behind the vehicle, increasing the risk of a crash.

Remedy:

ASA will notify the affected vehicle manufacturers, and dealers for those companies will remove the relay/capacitor harness module and replace the Voyager VOM74MM mirror monitor with a revision E monitor, free of charge. The recall is expected to begin in October 2019. Owners may contact ASA customer service at 1-877-384-4400.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kristin Lepper who may be reached by phone at 202-366-5227, or by email at kristin.lepper@dot.gov. We look forward to working with you.

Sincerely,

Joshua Neff
Chief, Recall Management Division
