**Components:**

AIR BAGS:FRONTAL:DRIVER SIDE INFLATOR MODULE

**Potential Number of Units Affected:** 71,301

**Problem Description:**

Daimler Vans USA, LLC (DVUSA) is recalling certain 2015-2017 Freightliner Sprinter 2500 and 3500 and Mercedes-Benz Sprinter 2500 and 3500 vehicles. These vehicles are equipped with certain air bag inflators assembled as part of the driver frontal air bag modules used as original equipment or replacement equipment. In the event of a crash necessitating deployment of the driver frontal air bag, these inflators may explode due to propellant degradation occurring after long-term exposure to absolute humidity and temperature cycling.

**Consequence:**

An inflator explosion may result in sharp metal fragments striking the driver or other occupants resulting in serious injury or death.

**Remedy:**

DVUSA will notify owners, and dealers will replace the front driver air bag module, free of charge. The recall is expected to begin March 29, 2019. Owners may contact DVUSA customer service at 1-877-762-8267.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs.
