KEYSTONE/HIDEOUT/2019-2020

Mfr's Report Date: August 21, 2019

NHTSA Campaign Number: 19V-611

Components:

EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 67

Problem Description:

Keystone RV Company (Keystone) is recalling certain 2019-2020 Hideout 25TH toy haulers. The trailers may be missing the Special Transportation Provision warning label in the garage area.

Consequence:

If the warning label is missing, occupants may not be cautioned that vehicles and equipment powered by internal combustion engines placed in recreational vehicles can cause carbon monoxide poisoning or asphyxiation, which could result in death or serious injury. The flammable liquids used to power these items can cause a fire or explosion, which can result in death or serious injury.

Remedy:

Keystone will notify owners, and dealers will provide the Special Transportation Provision warning labels, free of charge. The recall is expected September 20, 2019. Owners may contact Keystone customer service at 1-866-425-4369. Keystone's number for this recall is 19-359.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Keystone's proposed owner notification letter and have approved it for distribution.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
