Mfr's Report Date: October 8, 2019

NHTSA Campaign Number: 19V-716

Components:

STRUCTURE:BODY:DOOR

Potential Number of Units Affected: 153

Problem Description:

Daimler Vans USA, LLC (DVUSA) is recalling certain 2019 Mercedes-Benz and Freightliner Sprinter vehicles. In the affected vehicles, the abutting wedge, a component attached to the door jamb to make opening the door easier after a severe frontal impact, may have been installed incorrectly.

Consequence:

If a vehicle that has an incorrectly installed abutting wedge is involved in a severe frontal accident, a greater force may be necessary to open the doors, increasing the risk of injury.

Remedy:

DVUSA will notify owners, and dealers will inspect the installation of the abutting wedge on the driver and front passenger side, correcting it, as necessary, free of charge. The recall is expected to begin November 22, 2019. Owners may contact DVUSA customer service at 1-877-762-8267. DVUSA's number for this recall is VS3KEIL.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at (202) 366-1060, or by email at michelle.rice@dot.gov. We look forward to working with you.

Sincerely,
