TIRES

**Potential Number of Units Affected:** 9

**Problem Description:**

Forest River, Inc. (Forest River) is recalling certain 2020 Rockwood RLF8298KS and Flagstaff FLF8529RLS recreational trailers. Due to improper tire clearance, the tire may contact the steel chassis outrigger, possibly resulting in tire failure.

We have approved Forest River's proposed owner notification letter for distribution.

In recalls such as this where tire damage is a possibility, the remedy plan and remedy instructions need to include the replacement of tires that have apparent damage.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
