

Part 573 Safety Recall Report

19V-502

Manufacturer Name : Honda (American Honda Motor Co.)**Submission Date :** DEC 10, 2021**NHTSA Recall No. :** 19V-502**Manufacturer Recall No. :** F5F, Q5E**Manufacturer Information :**

Manufacturer Name : Honda (American Honda Motor Co.)

Address : 1919 Torrance Blvd.

Torrance CA 90501

Company phone : 1-888-234-2138

Population :

Number of potentially involved : 9,555

Estimated percentage with defect : 100 %

Vehicle Information :

Vehicle 1 : 2010-2010 Acura TSX

Vehicle Type :

Body Style :

Power Train : NR

Descriptive Information : According to the May 4, 2016 Amendment to the November 3, 2015 Consent Order, the fifth phase of the Takata DIRs that affect the subject vehicles (Priority Groups 11-12) are not scheduled until late 2019. However, in consideration of a sufficient supply of final remedy inflators, and upon consultation with the NHTSA, Honda is further accelerating the launch of the remedy for these vehicles ahead of the late 2019 scheduled Takata DIRs. The recall population was determined based on dealership warranty, repair order, and service parts records. The production range reflects all possible vehicles that could potentially experience the problem. This recall is specific to vehicles that received a PSPI-6 passenger frontal airbag inflator either as a recall remedy part or as a replacement service part (replacement passenger frontal airbag module containing a PSPI-6 inflator). Similar vehicles not included in this recall either were repaired with a passenger frontal airbag inflator from an alternative manufacturer, or are currently subject to an open passenger frontal airbag inflator recall. The number of affected units is 139.

Production Dates : MAY 08, 2009 - OCT 06, 2010

Descriptive Information : According to the May 4, 2016 Amendment to the November 3, 2015 Consent Order, the fifth phase of the Takata DIRs that affect the subject vehicles (Priority Groups 11-12) are not scheduled until late 2019. However, in consideration of a sufficient supply of final remedy inflators, and upon consultation with the NHTSA, Honda is further accelerating the launch of the remedy for these vehicles ahead of the late 2019 scheduled Takata DIRs. The recall population was determined based on dealership warranty, repair order, and service parts records. The production range reflects all possible vehicles that could potentially experience the problem. This recall is specific to vehicles that received a PSPI-6 passenger frontal airbag inflator either as a recall remedy part or as a replacement service part (replacement passenger frontal airbag module containing a PSPI-6 inflator). Similar vehicles not included in this recall either were repaired with a passenger frontal airbag inflator from an alternative manufacturer, or are currently subject to an open passenger frontal airbag inflator recall. The number of affected units is 5.

The production range reflects all possible vehicles that could potentially experience the problem. This recall is specific to vehicles that received a PSPI-6 passenger frontal airbag inflator either as a recall remedy part or as a replacement service part (replacement passenger frontal airbag module containing a PSPI-6 inflator). Similar vehicles not included in this recall either were repaired with a passenger frontal airbag inflator from an alternative manufacturer, or are currently subject to an open passenger frontal airbag inflator recall. The number of affected units is 45.

Descriptive Information : According to the May 4, 2016 Amendment to the November 3, 2015 Consent Order, the fifth phase of the Takata DIRs that affect the subject vehicles (Priority Groups 11-12) are not scheduled until late 2019. However, in consideration of a sufficient supply of final remedy inflators, and upon consultation with the NHTSA, Honda is further accelerating the launch of the remedy for these vehicles ahead of the late 2019 scheduled Takata DIRs. The recall population was determined based on dealership warranty, repair order, and service parts records. The production range reflects all possible vehicles that could potentially experience the problem. This recall is specific to vehicles that received a PSPI-6 passenger frontal airbag inflator either as a recall remedy part or as a replacement service part (replacement passenger frontal airbag module containing a PSPI-6 inflator). Similar vehicles not included in this recall either were repaired with a passenger frontal airbag inflator from an alternative manufacturer, or are currently subject to an open passenger frontal airbag inflator recall. Description of Defect :

Description of the Defect : According to the May 4, 2016 Amendment to the November 3, 2015 Consent Order, Takata agreed to conduct recalls on a rolling basis for a defect in all driver and passenger inflators that contain a PSAN-based propellant, and do not contain a moisture-absorbing desiccant. Specifically, a defect related to motor vehicle safety may arise in some of the subject non-desiccated PSAN inflators due to propellant degradation occurring after prolonged exposure to high absolute humidity, high temperatures, and high temperature cycling. Activation of a non-desiccated PSAN inflator with degraded propellant may result in an inflator rupture.

December 10, 2021 Update

This submission is to inform NHTSA of Honda's intention to implement the "other" reporting category for removing certain eligible vehicles that are "no longer in service" from recall outreach efforts and reporting those vehicles in the "other" reporting category as permitted in the Third Amendment to the Coordinated Remedy Order (ACRO3), paragraphs 45 through 49. Vehicles eligible for the "other" reporting category will be included in forthcoming completion reports which are submitted every four weeks. As required by ACRO3, the VINs of all vehicles counted as "other" will remain active in Honda's data systems such that any search for the VIN will reflect an open recall status on the NHTSA web site, the Honda web site and any other data networks through which Honda communicates safety recall status information, including communications to Honda dealerships. For this reason, the number of potentially involved vehicles in this report will remain the same; however, Honda will consider them "remedied" for purposes of calculating the remedy completion under ACRO3, paragraph 35.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : An inflator rupture may cause metal fragments to pass through the air bag and into the vehicle interior at high speed, which may result in injury or death to vehicle occupants.

Country : United States

Chronology :

May 29, 2019

In consideration of a sufficient supply of final remedy inflators, Honda consulted with the NHTSA about advancing the recall launch of Priority Groups 11-12 vehicles.

June 20, 2019

Honda determined that a defect related to motor vehicle safety existed and decided to conduct a safety recall ahead of the fifth phase of the Takata DIRs scheduled for late 2019.

Description of Remedy :

Description of Remedy Program : The owners of all affected vehicles will be contacted by mail and asked to take their vehicle to an Acura or Honda automobile dealer. The dealer will replace the passenger frontal airbag inflator with a new inflator, free of charge.

How Remedy Component Differs from Recalled Component : Passenger's frontal airbag inflator (PSPI-6), passenger's frontal airbag inflator (PSPI-6), part number: Accord / Accord Crosstour / Crosstour 77820-TA0-A80ZC, Civic / Civic Hybrid / Civic NGV 77820-SNA-A82ZA, CR-V 77820-SWA-A80ZA, Fit / Fit EV 77820-TK6-A80ZA, Insight 77820-TM8-A80ZB, Pilot 77851-SZA-A12, TSX / TSX Sport Wagon 77820-TL2-A80, ZDX 77851-SZN-A03.

Identify How/When Recall Condition was Corrected in Production : NR
