

SAFETY RECALL NOTICE

National Highway Traffic Safety Administration – Recall Number: XXXXXXXX

This notice serves to satisfy the guidelines set forth by the National Highway Traffic Safety Administration, and in accordance with the National Traffic and Motor Vehicle Safety Act.

Aero Industries has decided that a defect which relates to the Manual Crank exists in certain Easy Cover #200, #250, #300, #350, #400, #450, #465, #475, and #485 models.

IMPORTANT

- If your Easy Cover system was installed between November 11th, 2018, and April 19th, 2019. The Pawl Assembly (0311-960728) has been found to be defective inside your Manual Crank Assembly, and is being recalled.
- You should contact your Dealer, or Aero Industries to receive a Recall Retrofit Kit #0311-96XXXX shipped to you free of charge.

Why is a recall being conducted?

The defect involves the Spring Return of the Pawl Assembly. Under certain conditions the Spring Return Pin located on the Pawl Assembly can be dislodged causing the Return Spring to come loose from the Pawl Assembly.

What may cause the defect?

Due to excessive vibration, or shock. The Pin may become dislodged from Pawl Assembly.

What is Aero doing about the problem?

Aero Industries is offering Recall Retrofit Kit (#0311-96XXXX) as a replacement for your defective Pawl Assembly. This Retrofit Kit will be provided at no cost to you. We ask that you review the documentation that will arrive in your Retrofit Kit prior to performing the actual retrofit.

We estimate this retrofit will take approximately 1/2 hour.
