Takata *DO NOT* Use Parts List

****Takata *DO NOT* Use Part List****

Multiple Models & Model Years

Lexus previously advised dealers to discontinue the installation of the non-desiccated parts listed below for recall, customer pay repairs, and over-the-counter sales (if applicable).

At the time of the original notice to discontinue use of these parts Lexus requested dealers to return these parts free of charge. If your dealership still has inventory of any of the part numbers listed below, please remove all pieces from your inventory. To remove these parts from your inventory your facing PDC (Parts Distribution Center) may create a manual R8 exception return for these parts, and you can return them to your facing PDC for credit.

Lexus does NOT accept any of these part numbers on warranty claims. In addition, Lexus recommends that you follow applicable laws prohibiting introduction of recalled parts into commerce, including over-the-counter sales.

Model	Model Year	Part Number	Description
SC 430	2002-2006	04003-28124	48 Continental United States -Inflator Assy Kit, Instr Pln Air
